

Greetings,

We are thrilled to invite you to be a part of our first annual- “The Wonder Years Conference” on Friday, January 16, 2026, held at Indian River State College Massey Campus in Fort Pierce. This year’s event will be filled with inspirational teacher learning, research-based teaching methods, and engaging classroom approaches that will bring joy and excitement to the precious years of 0-5 early education.

The Wonder Years Conference is more than just a learning event. It is a way for our tri-county teaching community to connect; share ideas, collaborate, and learn the best practices in early education. Our mission is to provide teachers with access to incredible, up-to-date brain-based classroom practices while also connecting them with vendors and local agencies for further classroom support.

Our goals are to improve kindergarten readiness rates, develop impactful teacher-child interactions, and educate families on how to foster healthy and educated children. The Early Learning Coalition of Martin, Indian River, and Okeechobee serves around 2,000 children making the success of this conference essential to serving our community.

Enclosed you will find a sponsorship packet that outlines the many ways your business can make a difference to our important mission. Your support ensures that our teachers will receive an incredible experience in professional learning. When our teachers are inspired and passionate, our children receive the best educational experience, and we can ensure that they are ready for kindergarten.

We would be honored to have your partnership at our first annual “The Wonder Years Conference” on Friday, January 16, 2026.

Thank you for all that you do to improve the quality of early education.
With Much Gratitude,

Jill Flanagan
