Accessing the Provider Portal

The link to access the Provider Portal is <https://providerservices.floridaeearlylearning.com>.

Creating a Provider Portal Account

First-time Provider Portal users must register for an account to access the Provider Portal. Provider Portal users with multiple provider sites should begin by registering only one site location. This could be the provider's primary, flagship or main location. Once a Provider Portal account registration request is approved for one provider site, the provider user will be able to create accounts for additional sites after logging on to the Provider Portal.

Click the [here](#) link to start the new account registration process and the following page will display:

A Provider Portal user must enter the taxpayer identification number (from the provider), the provider identification number (from the early learning coalition) and the Department of Children and Families (DCF) license, registration, exemption number or type the word "EXEMPT". Providers may enter "EXEMPT" if they do not have an exemption number from DCF.

The Provider Portal user must click the **Verify License Details** button to complete step 1 of the Provider Portal account registration process.

If a match is found for the submitted information, the following message will display:

Provider Data Found

We found the following Provider data which corresponds to the license information that you entered. If we've correctly identified your provider, click Yes to pre-fill sections of the registration form. Otherwise, click No and try again with different license information.

Business name: 4 Kids Academy
Doing Business As name: 4 KIDS ACADEMY
Owner name: SARINA

Is this your provider?

Yes

No

If the information is not correct, click the **No** button and contact the local early learning coalition.

If the information is correct, click the **Yes** button. On the next screen, the registration information will be populated by the system, with the exception of User Information.

If a match is not found for the provider information, the following message will display:

No Matching Provider Data Found

Taxpayer or Provider ID: ✕ 00000000000

License/Registration/Exemption #: ✕ EXEMPT

We were not able to find matching provider site or principal business data to the specified taxpayer/license information. If you are a new provider, this situation is to be expected.

If you have reason to expect that your information should be in our provider system, please re-enter your license information and try again or contact your [early learning coalition](#) for assistance.

OK

After filling in the required information (noted with a red asterisk *), the Provider Portal user must click the **Register** button to complete the registration process.

Troubleshooting a Provider Portal Account Error Message

If the Provider Portal user receives the following message, contact the local early learning coalition to verify that the taxpayer identification number matches the OEL database.

The license number belongs to a provider/business that is associated with a different taxpayer identification number.

If the Provider Portal user receives either of the following messages, contact the local early learning coalition to determine if a provider portal account has already been created.

The license number belongs to a provider that is already associated with a registered account.

The taxpayer or provider identification number belongs to a business that is already associated with a registered account.

If the Provider Portal user receives the following message, contact the local early learning coalition to determine if the user name (email address) has been used in the Family Portal. The coalition may need to consult with OEL to make this determination. If a user name has been used in the Family Portal, even if an application was not created, OEL will have to remove the user name from the database so it can be used in the Provider Portal. If a provider has improperly used a user name to complete SR or VPK applications for a parent, the provider must contact that parent to get a replacement user name for that application so the provider's user name can be used in the Provider Portal. Another option is for the provider to pick another user name to use in the Provider Portal.

Provider Portal users are able to update their user information – name and phone number – associated with their email address. If the name associated with an email address is blank, the user can add the first and last name. If a name associated with a standardized email address (e.g. Info@JimsHouseofSmarties.com) needs to be changed due to a director or other staff leaving, the first and last name can be changed as long as another user has access to that Provider Portal account. If no one has access to the Provider Portal account, contact your local early learning coalition to submit a ticket to the OEL Service Desk.

If the Provider Portal user discovers that an email address has an error after it has been entered, the user can add the correct email address by clicking the **Add User** button, entering the required information, and then click the **Save** button. Then, the user will click the **Inactivate** button for the email address which has the incorrect email address. For example, from the above Manage All Users screen, if the Business Administrator's email address was incorrectly entered as oeldemonstation@gamaial.com, the process would be to click the **Add User** button and create oeldemonstration+3@gmail.com, click **Save**, and then click **Inactivate** for oeldemonstation@gamaial.com. It is important to create the correct email address first before inactivating the incorrect email address.

Step 7 – Staffing & Capacity

The Staffing & Capacity tab collects information on how many children the facility will or can care for. These questions are asked by age group. For each care level, the Provider Portal user should enter the highest number of teachers and children for all classrooms for each care level. This tab does not calculate staff-to-child ratios, but stores staffing and capacity numbers for local early learning coalition review.

Staff-to-child Ratio is the number of children that an individual teacher is responsible for. To reflect the actual ratio, the “Teachers in Classroom” column should always be 1. For example, if you have 2 teachers with one class of 20, you should list 1 “Teacher in Classroom” with 10 “Children in Classroom” and a “Group Size” of 20. If you follow the state mandated ratios for a center or facility, please see the example below. You can omit the age groups you do not serve.

Group Size is the maximum number of children, by age, that can be in a single classroom at any given time. If you follow the state mandated group sizes for a center or facility, please see the example below. You can omit the age groups you do not serve.

Step 8 – Private Pay Rates

The Private Pay Rates tab collects information on the provider's private pay rate based on unit of care and care level. The Provider Portal user must enter in the private pay rates for each "Unit of Care" and "Care Level" offered by the provider. Shaded cells do not permit entry. If care is not provided for that Unit of Care and Care Level, no entry is needed.

Providers that indicate they want to complete a contract to participate in the school readiness program on the General tab will also have a section on the Private Pay Rates tab to enter the Daily Rates for the School Readiness Program. The Provider Portal user may edit the \$0.00 amount for each "Unit of Care" and "Care Level" offered by the provider or click on the **SR Daily Rate Helper** button. The Helper button will automatically calculate the rates based on the Full Time Monthly Rates or Full Time Weekly Rates, and the Part Time Weekly Rates entered in the Private Pay Rates section. The rates are also editable after calculation. These rates will be utilized in the contracting process if the provider enters into a School Readiness contract with an early learning coalition.

NOTE: With Release 3.5, School Readiness providers must now answer a question regarding the family's responsibility to pay the differential between the Approved Reimbursement Rate and the Private Pay Rate.

Private Pay Rates

Private Pay Rates

Enter the advertised rates (private pay rates) your program charges in the table. Do not include voucher/subsidy rates, sliding scale rates, employee discounts or any other discounted rates. Only complete the rate type for each age group that you offer.

Do you require the parent to pay the differential between the Approved Reimbursement Rate and the Private Pay Rate?
☐ Yes ☐ No

Daily Rates for School Readiness Program

Enter the school readiness program daily rates in the table below. These rates will be used for SR contracting purposes and to determine your SR program reimbursement rates. Only complete the rate type for each age group that you offer. You may also use the SR Daily Rate Helper feature to automatically calculate the daily rates based on the Private Pay Rates entered above. The calculations are editable.

	Infant	Toddler	2 Year Old	Preschool 3	Preschool 4	Preschool 5	School Age	Special Needs

Step 9 – Closures Calendar

The Closures Calendar tab collects information on any days the provider will be closed. The Provider Portal user will select all closure days for the provider. Once selected, the date will change from white to blue. The local early learning coalition may define reimbursable holidays for the School Readiness program, which will be shaded gray. When a provider closure date and a coalition-defined reimbursable holiday are the same, the date will be shaded dark blue. A Provider Portal user does not need to include Saturdays and Sundays on the Closures Calendar if services are not provided on those days.

NOTE: Actual reimbursable holidays will be selected during the contracting process if the provider enters into a School Readiness contract with an early learning coalition.

Using the Calendar below, please indicate (select with your mouse) all days your facility will not be offering care for children.

Managing a Profile as a Provider Portal User

Provider Dashboard

On January 1 of each program year, a button will appear next to the current program year that will allow the Provider Portal user to migrate all profile information from the current program year to the next program year (except Closures Calendar dates). To migrate profile information to the next program year, the Provider Portal user will click the **Create 2019** button. In this example, the provider is migrating profile information from the 2018 – 2019 program year to the 2019 – 2020 program year. All information from the 2018-2019 profile will migrate to the 2019-2020 profile, with the exception of the Closures Calendar. The provider can also skip a profile year and still be able to create a profile for the current year. For example, the provider had a 2017-2018 profile, but skipped the 2018-2019 profile. In order to create a 2019-2020 profile, the provider will go to the 2017-2018 profile, click the **Create 2018** button, then go to the 2018-2019 profile, and click the **Create 2019** button. The skipped profile 2018-2019 can remain Incomplete.

After a provider is active, a Provider Portal User can edit the Provider Profile, by clicking the Profile dropdown menu and then clicking the **Provider Profile** button.

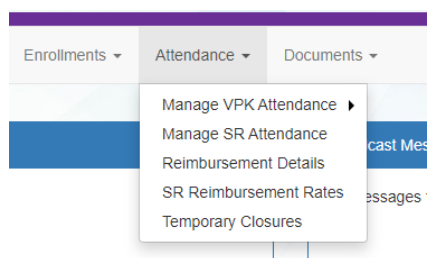

Provider Portal users can manage School Readiness and VPK contracts from the Provider Dashboard.

Provider Portal users can manage School Readiness and VPK enrollments from the Provider Dashboard.

Provider Portal users can manage School Readiness and VPK attendance, as well as view reimbursement details for paid attendance rosters, SR Reimbursement Rates, and Temporary Closures, from the Provider Dashboard.

Provider Portal users can click the Documents dropdown menu to access the Document Library Management function and view and upload additional documents for coalition review.

Below the header, the page title 'Exhibit 1' is centered, followed by a 'Provider Name:' label and a greyed-out text field. A section titled 'PROVIDER ELIGIBILITY' is highlighted with an orange border. It contains two lines of text: 'The COALITION has determined the PROVIDER is exempt from the program assessment requirement pursuant to Rule 6M-4.740, F.A.C. Yes ▾' and 'The PROVIDER waives the PROVIDER'S exemption and agrees to comply with requirements of Rules 6M-4.740, F.A.C. * Select ▾'. NOTE: If the provider is exempt from program assessments and selects “Yes” to waive the exemption, the contract will be sent back to the coalition for review.

This screenshot shows a 'Confirm' dialog box overlaid on the 'PROVIDER ELIGIBILITY' section of the Exhibit 1 page. The dialog box has a title bar with a question mark icon and the word 'Confirm', and a close button (X) in the top right corner. The main text inside the dialog box reads: 'You have indicated that you wish to waive the Provider's exemption from program assessments. The contract must now be reviewed by the Coalition before you may continue. Clicking "Yes" will send the contract back to the Coalition. You will not be signing or agreeing to any terms by performing this action. Do you wish to send the contract back to the Coalition for review?'. Step 4 – VPK Calendars

The VPK Calendars tab allows the Provider Portal user to provide information regarding each unique class calendar which will be offered at the VPK site. If classes are offered at identical times on identical dates, they utilize the same class calendar (e.g., all classes are scheduled from 8:00am to 11:00am, Monday through Friday, starting on January 11). If classes are not offered at identical times on identical dates, they utilize unique class calendars which must be created separately. Click the **Add New Calendar** button to begin.

[+ Add New Calendar]

☐ Show removed calendars

The Calendar ID will automatically populate with a letter beginning with A. Each additional calendar will receive a sequential Calendar ID.

The Calendar Name is an optional field. It may be used for a short nickname such as "Fall AM."

The program type selection of School-Year (540 hours) or Summer (300 hours) is required. The program selected will determine the valid calendar date range. The Calendar Start Date and Calendar End Date must be within the valid calendar date range. The Calendar Start Date and Calendar End Dates should reflect the first day VPK instruction will be delivered and the final day VPK instruction will be delivered.

Next, the instructional days, start time and end time must be added by checking the box by the days of the week that VPK instruction will be delivered and entering the times of VPK instruction for the days of the week that VPK instruction will be delivered.

The screenshot shows the 'VPK Calendars' section of a web application. The form includes fields for 'Calendar ID', 'Calendar Name', 'Program Type' (set to 'School-Year'), 'Calendar Start Date', and 'Calendar End Date'. Below these is a table for 'Instructional Days' with columns for 'Day', 'Start Time', and 'End Time'. The days of the week are listed, and the 'Start Time' and 'End Time' fields are currently empty. To the right of the table is a calendar for February 2018. At the bottom, the 'Total Calculated Hours' is 0.00, and the 'Total VPK Instructional Days' is 0. A red error message states: 'The Total Calculated Hours are less than the hours allotted for the VPK Program Type selected. Please correct if needed.'

After the instructional days, start time and end time are added, the Total Calculated Hours and Total VPK Instructional Days sections will populate.

The screenshot shows the same 'VPK Calendars' form, but now the 'Instructional Days' table is populated. The 'Day' column shows 'Monday' through 'Friday' are selected (indicated by a checkmark in a box). The 'Start Time' for all selected days is '08:00 AM' and the 'End Time' is '11:00 AM'. The 'Total Calculated Hours' is now 585.00, and the 'Total VPK Instructional Days' is 195. A red error message states: 'The Total Calculated Hours are greater than the hours allotted for the VPK Program Type selected. Please correct.'

Providers are to use the calendar to note any non-instructional days on which VPK instruction will not be delivered (such as vacations or holidays) and exceptions to normal instructional days that occur during the defined calendar start and end date. Entering Non-Instructional Days and Instructional Day Exceptions can increase or decrease the Total Calculated Hours.

For example, if the Total Calculated Hours exceed 300 hours for the summer program type or 540 hours for the school-year program type (as shown in the example above), the user may remove a day (or more) by labeling it a Non-Instructional Day. Each Non-Instructional Day entered will deduct the hours assigned to that day, thereby decreasing the Total Calculated Hours. Instructional Day Exceptions can be used to change the hours assigned to that day (to increase or decrease the hours). For example, if the calendar is a few hours short, an instructional day's hours may be extended to increase the Total Calculated Hours. To add a Non-Instructional Day or an Instructional Day Exception to the calendar, click on that date on the calendar. Multiple days can be selected by clicking and dragging across multiple days on the calendar.

Enrollments - VPK

VPK Providers may manage VPK enrollment online by going to **Enrollments > Manage VPK Enrollments**. Two options are available: Request/Change Enrollment and Bulk File Upload.

Request/Change Enrollment

This feature allows VPK Providers to request or change enrollment for children in verified classes submitted through the VPK Provider Application. To begin, select the VPK Program Year, VPK Session, and VPK Class.

A screenshot of the 'Request/Change VPK Enrollment' form. At the top, there are two tabs: 'Request/Change VPK Enrollment' (active) and 'Bulk VPK Enrollment'. Below the tabs, there are three dropdown menus for 'VPK Program Year', 'VPK Session', and 'VPK Class', each with a '--Select--' option. To the right of these are fields for 'Class Start Date' and 'Class End Date'. Below these fields are three input fields: 'Max Class Size: 0', 'VPK Children Count: 0', and 'Non-VPK Children Count: 0'. A 'Please Note' message states: 'Based on the VPK session and instructors assigned, the maximum class size is 0. The class must have a minimum of 4 VPK children to start.' Below this is a row of input fields for 'Certificate Number', 'Child First Name', 'Child Last Name', and 'Child DOB' (with a date picker). To the right of these is an 'Enroll to this Class' button. Below the input fields is a table with columns: 'Actions', 'Certificate Number', 'Child First Name', 'Child Last Name', 'Child DOB', 'Child Age', 'Student ID', 'Anticipated Start Date', 'Actual Start Date', 'Termination Effective Date', and 'Status'. A message below the table says 'Please choose valid program year, session and class from drop downs to see results.'

With the VPK Program Year, VPK Session, and VPK Class selected, the class start date and end date appear as well as the max class size. This information is directly tied to the VPK Provider Application. For example, if there is one lead instructor for the school-year session submitted and verified on the VPK Provider Application, the max class size will be 11; if there are two instructors for the school-year session submitted and verified on the VPK Provider Application, the max class size will be 20.

Next, the VPK children count and Non-VPK children count are displayed. These two counts (summed together) cannot exceed the max class size. The Non-VPK children count is used to anonymously indicate private pay children participating in the VPK class. The Non-VPK children count defaults to zero. When the Non-VPK children count is used, the number of VPK children permitted in the class is reduced to maintain the max class size limit.

A screenshot of the 'Request/Change VPK Enrollment' form, showing the state after selections. The 'VPK Program Year' is set to '2018-2019', 'VPK Session' is 'School-year (540 hours)', and 'VPK Class' is 'AF18 - AM Redbirds'. The 'Class Start Date' is '08/20/2018' and 'Class End Date' is '05/17/2019'. The 'Max Class Size' is now '11', 'VPK Children Count' is '8', and 'Non-VPK Children Count' is '3'. A green message states: 'Non-VPK Children Count updated successfully for this class.' A 'Please Note' message states: 'Based on the VPK session and instructors assigned, the maximum class size is 11. The class must have a minimum of 4 VPK children to start.' The 'Enroll to this Class' button is still present. The table below is empty, with a message 'No records found for this class.'

1. VPK program year 2018-2019	2. Certificate number VPK737-2018	3. Certificate issue date 7/7/2018	4. Parent email address
5. Parent name 	6. Primary contact number 	7. Secondary contact number 	
8. Child's full name Apple Latham	9. Child's date of birth 09/09/2013	10. County Clay	

The system verifies that the information entered matches a child with an approved COE for the VPK program year selected and that the child is not already enrolled (or in a non-eligible status for enrollment).

NOTE: The county on the COE does not have to match the provider's county because the child has been deemed eligible to participate in the VPK program. The enrollment process automatically updates the child's county for service to the provider's county so the corresponding early learning coalition may manage the child's enrollment with the provider.

When a matching child is found and validations checks are successful, a confirmation message appears. To continue, click Yes.

Next, the system asks for the Anticipated Start Date. This is the date the child will begin attending class. Typically, this is the class start date unless the child is starting after the class begins.

NOTE: An anticipated start date cannot be before the class start date or after the class end date. And, an anticipated start date cannot be before the child's COE issue date (as displayed on the child's COE and listed in the enrollment window).

Managing VPK Enrollment

The class roster has several features for managing enrollment. Providers may change the anticipated start date, request to move the child to another class, remove the child entirely from the roster because they never attended, or request a termination of services.

Change Anticipated Start Date

To change the child's anticipated state date, click **Change** within the Anticipated State Date column. A window displays. The current start date populates in the *From* field; enter the new start date in the *To* field. This feature does not require coalition approval. Click **Save** to commit the new date or click **Close** to abandon the date change and close the window. This feature is available until the actual start date is recorded through the attendance process. When the actual start date is populated in the column, the **Change** button is no longer available.

Never Attended

To remove a child from a class completely because they never attended, click **Never Attended** within the Actions column. A window displays. This feature does not require coalition approval. Click **Yes** to remove the child or click **No** to abandon the removal and close the window. Removing an enrollment changes the record's status to *Enrollment Cancelled* and the enrollment process starts over for the family. The provider's VPK Director will receive an email notification to inform them the enrollment is removed; no attendance or reimbursement may be sought. The child's record is no longer listed on the class enrollment roster or attendance roster in the Provider Portal. The family will receive an email notification to inform them the enrollment for their child was cancelled; instructions are provided to log into the Family Portal to download the child's COE and select another VPK provider.

This feature is available until the actual start date is recorded through the attendance process. When the actual start date is populated in the column, the **Never Attended** button is no longer available.

NOTE: Be very careful with the **Never Attended** feature. If the intention is to transfer the child to a different classroom, use the **Class Change** feature. If the child attended class, VPK instructional hours were used, and reimbursement is needed, use the **Terminate** feature.

Terminate

To terminate a child's enrollment, click **Terminate** within the Termination Effective Date column. A window displays. Enter the last day that services will be/were rendered and select the reason for termination. The Termination Effective Date is displayed below the Last Day of Services as one day after the last day of services. Therefore, the Termination Effective Date is the first day the child is NOT attending class. This feature requires coalition approval. Click **Submit Request** to send the request to the coalition or click **Close** to abandon the termination request and close the window.

NOTE: A child's enrollment cannot be terminated before the class start date. If the provider enters a date in the Last Day of Services that is BEFORE the class start date, an error message appears, "Termination effective date cannot be prior to the class start date. If the child never attended, click the **Never Attended** button to cancel the enrollment." Either enter a termination date that is after the class start date (and on or after the COE issue date), or click **Close** to abandon the termination request and close the window.

When the termination request is submitted, the child appears on the class's enrollment roster as "Enrolled - Change Requested." The coalition will receive the termination request for review/approval/rejection.

A. **Provider ID** = this is the provider ID for the site displayed on the Provider Portal home page/dashboard.

B. **Certification Number** = this is the child's certificate number listed on their COE. The field is not case sensitive, however, the certificate number must be entered exactly as it appears on the COE (i.e. VPK####-YYYY).

5. Parent name 		6. Primary contact number 	7. Secondary contact number
8. Child's full name KitKat Latham C D		9. Child's date of birth 09/09/2012 E	10. County

C. **Child First Name** = this is the child's first name listed on their COE. The field is not case sensitive.

D. **Child Last Name** = this is the child's last name listed on their COE. Do not include a suffix (if any). The field is not case sensitive.

E. **Child DOB (MM/DD/YYYY)** = this is the child's date of birth listed on their COE. The field will accept M/D/YYYY as well.

F. **VPK Program Year** = this is the child's approved VPK program year listed on their COE. The field is looking for the first 4-digit year only. For example, if the VPK program year is 2017-2018, the entry would be

2017. Generally, the 4-digit VPK program year matches the year included at the end of the child's COE number.

- G. **Class ID** = this is the desired class's 4-digit ID. The class ID must be entered as the 4-digit assigned ID. Do not include the class name (if any). Looking at the example below, the entry would be "AS17" not "Songbirds" or "AS17-Songbirds."

The screenshot shows a web form for VPK enrollment. At the top, there are two tabs: "Request/Change VPK Enrollment" and "Bulk VPK Enrollment". Below the tabs, there are four dropdown menus: "VPK Program Year" (set to 2017-2018), "VPK Session" (set to Summer (300 hours)), "VPK Class" (set to AS17 - Songbirds, highlighted with an orange box), and "Class Start Date" (set to 06/04/2018). To the right of the "Class Start Date" dropdown is the "Class End Date" (set to 07/26/2018).

- H. **Anticipated Start Date (MM/DD/YYYY)** = this is the date the child will begin attending class. Typically, this is the class start date unless the child is starting after the class begins.
NOTE: An anticipated start date cannot be before the class start date or after the class end date. And, an anticipated start date cannot be before the child's COE issue date. The field will accept M/D/YYYY as well.
- I. **MSID (XX-XXXX)** = this field is for public schools only. Public schools may enter their Master School Identification (MSID) number in a 6-digit format, where the first 2 digits are the district number followed by a hyphen and 4-digit school number. The MSID number can be used in lieu of the Provider ID in column A. Both IDs are accepted.

When the file is complete, name it and save it as a CSV file type.

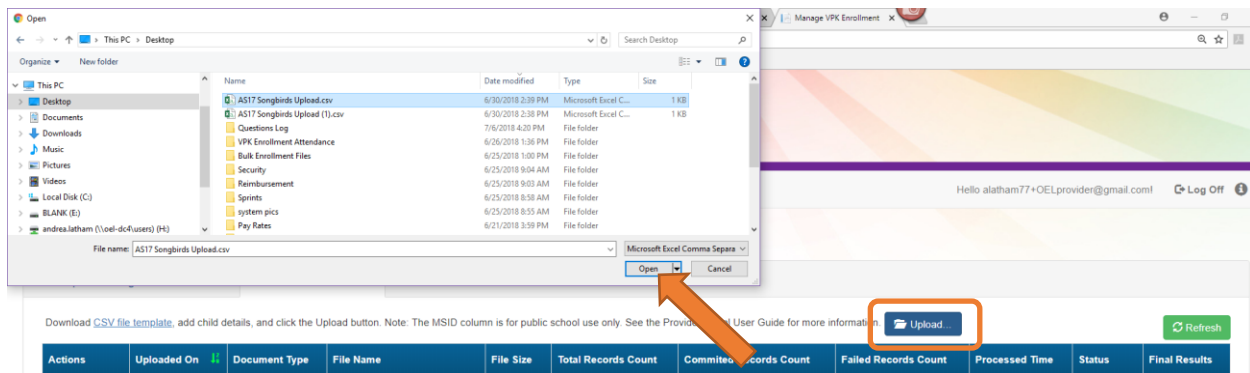

NOTE: It may be helpful to include the provider name and class in the file name if troubleshooting is ever necessary.

When changing the file format to CSV, Excel often displays a message to ask if you want to keep using that format. If this message appears, click **Yes**.

Click the **Upload** button. A window displays. Select your file and click **Open**.

The file upload will begin. The file details will populate on a row and turn green. Click the **Refresh** button to populate the results.

The file details will be updated. The file size, total records count, committed records count, failed records count, processed time, status, and final results are updated. The file results are also returned and can be downloaded by clicking on the **Download** button.

In this example, there is one failed record and three committed records. The file download will include the error message and status for each record submitted. The three committed records are now “Enrollment Submitted” and the failed record was not included because of an invalid date of birth. The same validations that occur with a manual child enrollment occur with the bulk enrollment file process.

The three committed records are displayed on the class’s enrollment roster as “Enrollment Submitted” and the coalition receives the enrollment requests for review/approval/rejection. In addition, the family receives a notification that their child’s enrollment is in progress. The same processes that occur with a manual child enrollment occur with the bulk enrollment file process.

Never Attended	VPK1095627-2017	Butterfinger	Latham	09/09/2012	5y		07/02/2018			Enrollment Submitted

NOTE: When correcting records and re-uploading the file, be sure to remove the “Error or Status” column as it is not accepted for the upload. Also, it is best to NOT include records that have already been submitted successfully as they will now error as having been processed. When removing successful records and the Error or Status column, it is best to highlight the row/column and use the cut/delete option instead of just deleting the information. Excel often retains formats even if the cells are now empty.

Enrollments - SR

Pending Family Acceptance Status

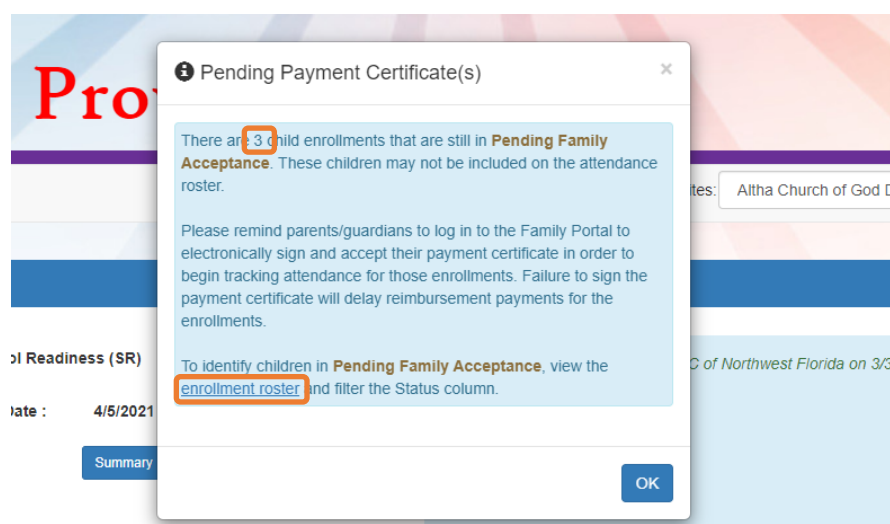

When a new School Readiness enrollment is created for an eligible child, families must accept the terms and conditions, establish their consent for developmental screening and/or child assessment, and sign the payment certificate. Families receive an email notification from OEL every five days until these steps are completed and the enrollment status changes from **Pending Family Acceptance** to **Enrolled**.

New enrollments in **Pending Family Acceptance** will not be visible on provider attendance rosters and will only appear once the family signs the payment certificate; however, there are exceptions.

- New enrollments for at-risk children (BG1) or at-risk children in relative care (BG3R) billing groups in **Pending Family Acceptance** will populate on attendance rosters
- Existing enrollments in **Pending Family Acceptance** that have already been submitted for attendance in previous months will continue to populate on attendance rosters

Providers will be able to process attendance and be paid for these enrollments, but not until the payment certificate is signed by the family.

If a provider has new enrollments in **Pending Family Acceptance**, when the provider accesses SR attendance, a pop-up window will display with a count of those new enrollments and a link to the Manage SR Enrollment queue.

Viewing Enrollments in Pending Family Acceptance

To view enrollments in **Pending Family Acceptance**, navigate to **Enrollments > Manage SR Enrollments > View/Edit SR Enrollments > Pending Family Acceptance**.

Creating a Temporary Closure for a Whole Site Closure

Complete the form. Hover over the information icons ⓘ for additional information.

- **Temporary Closure Type**
 - When an entire site is temporarily closed due to emergency circumstances, where all programs and children are impacted, select “The whole site was closed. Services were not provided to any children.”
 - When only the VPK program or only some VPK classes were closed, select “The site was partially closed. Services were not provided to all or some VPK classes.”
 - When only the SR program or only some SR classes were closed, select “The site was partially closed. Services were not provided to all or some SR care levels.”
- **Closed Provider Site(s)** – Select the site(s) that were temporarily closed due to emergency circumstances. Each site that the user has access to is listed. Only providers with VPK or SR enrollments display in the dropdown list. **NOTE:** If providers were closed for different dates, they should be unchecked and have separate closure events created.

- **Closure Details** – Enter the closure date range. The “Closed From” date is the first day of the closure and the “Closed To” date is the last day of the closure. A single day closure would have the same “Closed From” and “Closed To” date. No services are available on dates included in the closure date range. The “Anticipated Reopen Date” is the date the provider expects to reopen. **NOTE:** The closure date range is limited to a single month. If the closure crosses into the next month, an additional closure is needed to cover that time period.
- **Closure Reasons** – Select the applicable reason(s) for closure. If ‘Other’ is selected as the closure reason, then a comment is required.
- **Documentation** – Click the **Upload Document** button to upload necessary documents (optional).
- **Comments** – Enter comments related to the closure. If no comments are entered when the form is saved or submitted, the system will enter “Closure added by provider user” in the comments.

- Individual students, not affected by a temporary closure, may be edited in SR attendance. For example, a 2 Year Old class has 6 children showing a CR for the temporary closure, but 3 of them were present on the CR days. The provider can change the CR days to an X to mark the 3 children present.

VPK Non-Reimbursable Temporary Closures

After the coalition approves a temporary closure that has non-reimbursable (CN) days, VPK providers must take additional steps to complete the process. When the temporary closure with non-reimbursable days is set to “Processed”:

1. The provider’s VPK provider application (VPK-APP) is changed to “Incomplete” status.
2. If the class(es) associated with the non-reimbursable closure shares a calendar with another class, the system separates the calendar so that each class that shared the calendar will have its own calendar. In other words, the original class calendar is cloned as many times as needed and each cloned calendar is assigned to a class so that all classes involved in the closure have its own calendar. (One of the classes will keep the original calendar.)
 - A new cloned calendar’s name consists of the word “Revised:” followed by the original calendar’s name and the associated class’s name in parenthesis.
 - If the original calendar does not have a name, the cloned calendar’s name will only consist of “Revised:” and the associated class’s name in parenthesis.

Example:

Original Calendar:

 A  Edit  Remove

Calendar Name: M - F 8:30 - 11:30
Program Type: School Year (540 hours)
Calendar Start Date: 08/10/2021
Calendar End Date: 05/27/2022

Non-Instructional, Site Closures and Exceptional Instructional Days:

August 2021 >

Sun	Mon	Tue	Wed
1	2	3	4

Cloned Calendar assigned to class AF21:

 A  Edit  Remove

Calendar Name: Revised: M - F 8:30 - 11:30 (AF21)
Program Type: School Year (540 hours)
Calendar Start Date: 08/10/2021
Calendar End Date: 05/27/2022

Non-Instructional, Site Closures and Exceptional Instructional Days:

August 2021 >

Sun	Mon	Tue	Wed
1	2	3	4

3. The non-reimbursable temporary closures for each class are automatically written to the original and/or cloned calendar as “**Non-Instructional: Temporary Closure Added**” in the correct service period month.

NOTE: When non-instructional temporary closure days are added to a VPK calendar, the Total Calculated Hours are reduced, so the provider must adjust the calendar to restore the calculated hours to “540”.

4. An email notification is sent to the provider advising that their VPK-APP is in non-certified status due to a temporary closure. The provider is instructed to log into the account to update and submit the VPK-APP to the coalition.

Update VPK Class Calendar

Providers must revise their VPK class calendar(s) in their VPK-APP to make up the hours for the non-instructional day(s) due to temporary closure (CN days). In the Provider Portal, navigate to the **Contracts > Manage Contracts**. Or, on the home page Common Tasks section, click the VPK Provider Application link.

On the Manage Contracts page, click the **Edit** button for the incomplete VPK-APP.

The screenshot shows the 'Manage Contracts' page. It features a table with the following columns: Contract ID, Type of Contract, Contract Name, Coalition, Status, Last Updated, Action, View Contract, Effective Date, Termination Date, and Program Year. The first row of the table is highlighted, showing a contract with ID 29683, Type VPK-APP, Name VPK 10,11A,11B, Status Incomplete, and Last Updated 8/29/2021. The 'Edit' button for this contract is highlighted with a red box. Below the table, it says 'Showing 1 to 5 of 5 entries (filtered from 17 total entries)'. There are also pagination controls: First, Previous, 1, Next, Last.

Click the **VPK Calendars** tab to open the calendars page.

The screenshot shows the 'VPK Calendars' page. It features a section titled 'Attendance Policy Submission' with a list of requirements for VPK Providers. The requirements are:

- ✓ Adopt an attendance policy that aligns with VPK rules and statutes and requires parents to verify the child's attendance each month on forms required by Rule 6M-8.305, F.A.C.
- ✓ Provide a copy of its attendance policy to the early learning coalition before executing a contract by uploading to the portal (below)
- ✓ Provide a copy of this policy to parents of each VPK child admitted into the provider's VPK program (at the time of enrollment)
- ✓ Not amend its attendance policy for its VPK program duration of the VPK contract

Identify the calendar(s) with the non-instructional temporary closure days. Click the **Edit** button to make changes to a calendar. The system defaults to the first calendar month of the class. Click the forward arrow if needed to view the month with the closure.

Total Calculated Hours are reduced by the NonInstructional Day(s) due to the temporary closure.

Total Calculated Hours: 537.00

The Total Calculated Hours are less than the hours allotted for the VPK Program Type selected. Please correct if needed.

Total VPK Instructional Days: 179

Make adjustments to the calendar to restore the hours to 540. This can be accomplished in a variety of ways such as:

- Canceling previously identified future non-instructional days
- Extending the class end date
- Extending the time on instructional days by creating Instructional Day Exceptions with different class hours

When the changes are done and the calculated hours are restored, click the **Save** button.

NOTE: These steps must be completed for each impacted calendar.

When all impacted calendars are updated, click on the **Certify and Submit** tab. Complete the signature information, then click the **Submit VPK Provider Application** button.

Attendance - VPK

Providers manage VPK attendance online by navigating to the Attendance menu item and selecting **Manage VPK Attendance**. Providers may submit their attendance through the web page or using a bulk file upload, similar to the bulk enrollment file upload. It is important to note that changes to enrollment, such as entering a termination date, or changes to the class schedule, such as reporting a site closure, cannot be performed in attendance. Enrollment information must be corrected in the Enrollments area. Class schedule information must be corrected in the **Contracts > VPK Provider Application** area. Any changes to source data should be done prior to submitting attendance. Coalitions may assist as needed.

Submitting Attendance Online

Select the **Manage VPK Attendance** menu item. The VPK Attendance Roster displays, defaulting to the current service period and first class. The blue summary box to the right contains class details such as the class full name, start and end dates, and max class size. If necessary, use the drop downs to select a different service period and/or class.

NOTE: A service period is the month in which services were rendered. Child absences for the service period must be marked, saved, and submitted to the coalition for payment. A due date is displayed for each service period. Providers with multiple classes must submit an attendance roster for each class for payment.

The search feature may be used to search for any criteria included in the roster (i.e. a name, DOB, age, billing group, or status). The summary feature shows the current/saved attendance information for all children in one view.

To record attendance, click on a child's name to view their attendance for the month.

Submitted Attendance

Upon submission, the screen returns to the VPK Attendance Roster view with the current service period displayed. Select the submitted service period from the drop down. The submitted roster now has a submitted message and each child shows "SUB" for submitted in the status column. This status will change as the child attendance is processed by the coalition.

The screenshot displays the VPK Attendance Roster interface. At the top, the title is "VPK Attendance Roster". Below the title, there are several fields: "Program Type" is set to "VPK", "Service Period" is "10/1/2018 to 10/31/2018", and "Class ID" is "AF18". A "Due Date" of "11/5/2018" is also shown. A "Summary" button is present. To the right, a blue box contains a message: "Class attendance was submitted to Coalition on 12/8/2018 by alatham77+OELprovider@gmail.com." Below this, class details are listed: "Class: AF18-Purple Room", "Max Class Size: 11", "Start Date: 7/2/2018", "End Date: 5/31/2019", "Curriculum: Scholastic Big Day for Pre-K English", and "Edition: 1st edition/2010".

Below the fields, there is a search bar and a table of enrolled children. The table has columns: "Child Name", "DOB (Age/Billing Group)", and "Status". The first 11 children are listed, all with a status of "SUB".

To the right of the table, there is an "Attendance Calendar" for "October 2018". The calendar shows days from Sunday to Saturday. A button "Select a child to edit attendance" is located next to the calendar.

Rejected Attendance

Coalition staff may reject submitted attendance. In this case, the individual that submitted the roster will receive an email notification. Instructions are provided to log in to the Provider Services Portal, review the roster, make necessary changes to rejected records, and re-submit. The rejected child records are displayed at the top of the roster list in red and show "REJ" for rejected in the status column. Only records with "REJ" may be edited.

Uploading Bulk Attendance File

Providers may submit their attendance via a bulk file upload (similar to the enrollment bulk file upload process). To begin, go to the Attendance menu item, choose Manage VPK Attendance, and then select **Bulk File Upload**.

The Bulk VPK Attendance page displays.

Click the **CSV file template** link. A window appears. From this window, select the service month and year to generate a file for all of the enrollments (for all classes) at the site that month. Alternatively, multi-site providers may check the *"Include all providers for provider principal"* box to generate a file for all of the enrollments (for all classes) at all sites associated to the account for that month. Then, click the **Download** button.

Open the downloaded file. The enrollment information for each class is pre-populated. Each instructional day during the student's enrollment defaults to present (X).

- Legend: present (X), site closed (*), student not started (_), student terminated (T).
- Day_1 = first of attendance month, Day_2 = second day of attendance month, Day_3 = third day of attendance month, etc. In this example, Day_1 = August 1, Day_2 = August 2, and Day_3 = August 3.
- Regardless of the month/year, columns for Day_1 to Day_31 are included in the file and are necessary for the upload; none should be removed.
- It is critical that only the content of "Day_#" columns are changed (i.e. changing an X to an A). Attempting to add students or edit/remove system generated columns will cause errors. The file is a reflection of the enrollment information for the class when downloaded. If issues are identified, please contact the local early learning coalition for assistance.

Scroll over to the days and record absences by changing a present day (X) to absent (A). Tip: (In Excel) Open the **View** menu, select column H, and click **Freeze Panes**. This will keep the student's name and demographic information in view while scrolling through days.

Attendance - SR

Providers manage SR attendance online by navigating to the Attendance menu item and selecting **Manage SR Attendance**. Providers may submit their attendance through the web page. It is important to note that changes to enrollment, such as entering a termination date, cannot be performed in the attendance module but rather the Manage SR Enrollment area. Also, when issues appear on the attendance roster (such as incorrect enrollment information, missing children, duplicate children, missing paid holidays, duplicate absences on the same day, etc.), the issues should be communicated to the coalition before submitting the attendance roster. Coalitions may assist in addressing the issues so that the attendance records have accurate information.

Submitting Attendance Online

Select the **Manage SR Attendance** menu item. The SR Attendance Roster displays, defaulting to the current service period. The blue summary box to the right contains provider details and paid holiday information for the service period.

Select a child from enrollees to edit attendance

NOTE: A service period is the month in which services were rendered. Child absences for the service period must be marked, saved, and submitted to the coalition. A due date is displayed for each service period. Providers that contract with multiple coalitions must submit an attendance roster to each coalition.

Children that are "Enrolled" are included on the SR attendance roster.

New enrollments in “Pending Family Acceptance” will not be visible on attendance rosters and will only appear once the family signs the payment certificate; however, there are exceptions.

- New enrollments for at-risk children (BG1) or at-risk children in relative care (BG3R) billing groups in Pending Family Acceptance will populate on attendance rosters
- Existing enrollments in Pending Family Acceptance that have already been submitted for attendance in previous months will continue to populate on attendance rosters

If a provider has new enrollments in “Pending Family Acceptance”, when the provider clicks the **Manage SR Attendance** menu item, a pop-up window will display with a count of those new enrollments and a link to the Manage SR Enrollment queue.

See the Pending Family Acceptance Status section in this user guide for more information.

The search feature may be used to search for any criteria included in the roster (i.e. a name, DOB, age, billing group, or status). The summary feature shows the current/saved attendance information for all children in one view.

To record attendance, click on a child's name to view their attendance for the month.

The screenshot displays the 'Attendance Calendar' interface. On the left is a roster table with columns: Child Name, DOB, Age, Billing Group, and Status. The roster lists five children: Daphne Latham, Fred Latham, Scooby-Doo Latham, Scrappy-Doo Latham, and Shaggy Latham. The main area shows a calendar for August 2018 with days of the week (Sun-Sat) and dates. Each day contains a colored box indicating attendance status: green for 'Enrolled/Present' (X), yellow for 'Absent' (A), orange for 'Non-Reimbursable/Non-Scheduled Days' (NS), blue for 'Paid Holiday Days' (H), red for 'Terminated/Enrollment Ended' (T), grey for 'Closed' (*), and light blue for 'Attendance has not started'. On the right is a 'Child's Current Information' panel for Daphne Latham, showing DOB, Age, Copay, BGrp, Status, and a 'Monthly Attendance Summary' with 'Anticipated Start Date', 'Days Absent', 'Days Present', 'Reimbursed Holidays', and 'Non-Reimbursable Days'. At the bottom left is a legend for the attendance codes. At the bottom right are buttons for 'Save', 'Save & Exit', 'Cancel', and 'Submit to Coalition'.

- Days the site is closed are marked with an asterisk “*”
- Days the child is not scheduled to attend are marked with “NS”. If the entire month for a child is marked “NS”, contact the local early learning coalition to correct the care days.
- Days the child is scheduled to attend are marked with an “X” for present along with his/her scheduled unit of care
- Paid holidays where a child is also scheduled to attend are marked with an “H”
- A legend is provided in the bottom right for more code descriptions

NOTE: The “Child’s Current Information” displayed on the right is current as of today. When working prior months, the information displayed may not align. For example, if a child’s enrollment was terminated in February 2019, the current enrollment status is *Enrollment Ended*. Each month (prior to February) will also display *Enrollment Ended* in the “Child’s Current Information” area because it is the current enrollment status. This does not impact the ability to record attendance for those prior months. Enhancements are planned to address the display.

To change a present day to absent, click on the “X.” A pop-up message appears to collect more information.

- Select an absent reason from the dropdown.
- Include a message to the coalition regarding the absence in the Note area. (*optional for most reasons*)
- Attach a file for supporting documentation by clicking **Choose File**. (*optional*)
- Click **Save** when done and the pop-up message will close.
- The “X” for present will now appear as an “A” for absent.

- f. Consecutive absences can be entered by using a date range. A document can be attached to the absence range and the document will be associated to every day entered in the date span.
- g. Absences entered by mistake can be changed back to present by clicking on the "A." The below pop-up message appears. To undo the absence, click the **Remove Absence** button. That day will show an "X", the absence reason is removed, and the attachment is removed.

Sample VPK Wrap Calculation

This is an example of a VPK wrap calculation for a child enrolled in both SR and VPK. The VPK class is 3 hours long and the child has full time care.

NOTE: The calculations are to 4 decimal places until the Gross Payment Amount, where it is rounded.

How are wrap rates calculated?

1. Provider Contract Approved Rate
2. Hourly Rate = Daily Rate/Max SR Hours *[calculated to 4 decimal places]*
3. Payable Hours = Max SR Hours - VPK Hours
4. SR Daily Rate = Payable Hours * Hourly Rate *[calculated to 4 decimal places]*
5. Gross Payment Amount = SR Daily Rate * Total Days Paid *[calculated to 4 decimal places]*

Example:

1. Provider Contract Approved Rate (PR4): \$24.50
2. Hourly Rate: $\$24.50/11 = \2.2273
3. Payable Hours: $11-3 = 8$
4. SR Daily Rate: $8 * \$2.2273 = \17.8184
5. Gross Payment Amount: $\$17.8184 * 20 = \356.3680

For this record on the 5045, the provider is reimbursed for \$356.37.
