Hope Florida - A Pathway to Prosperity: Uniting communities through 'Hope Navigators' to guide Floridians on an individualized path to prosperity, economic self-sufficiency and hope.

Spearheaded by First Lady Casey DeSantis and implemented by the Florida Department of Children and Families, Hope Florida utilizes 'Hope Navigators' to help focus on community collaboration between the private sector, faith-based community, nonprofits and government entities to break down traditional community silos, in an effort to maximize resources and uncover opportunities.

These 'Hope Navigators' are essential in helping individuals identify their unique and immediate barriers to prosperity, develop long term-goals, map out a strategic plan, and work to ensure all sectors of the community have a 'seat at the table' and are part of the solution.

Families can search by zip code to locate available services in their communities. The services include resources for food, housing, goods, transportation, health, financial assistance, a caregiver's portal for adults and children, education, work, and legal assistance. Each category offers a selection of resources for specific needs. The site is available in English, Spanish and Haitian Creole.

[Continue The Mission - Florida Department of Children and Families \(myflfamilies.com\)](#)

Continue the Mission strives to recruit veterans, military spouses, and former law enforcement officers with a desire to serve within their community. When children and families experience a crisis they need reliable support from strong, compassionate, and skilled individuals who will provide support ensuring their safety these are attributes our military and law enforcement agencies instill. Career or mentor opportunities include child protective investigators, adult protective investigators, and case managers.

MIND in the Making

Mind in the Making

Mind in the Making is a learning journey to provide parents and professionals with easy ways to help young children build essential life skills they need to thrive. Ellen Galinsky the creator researched for years to uncover what helps children thrive. The eight modules share information regarding this science and how young children learn best.

Each module covers one of the essential skills: *Focus and Self Control, Perspective Taking, Communicating, Making Connections, Critical Thinking, Taking on Challenges, and Self-Directed, Engaged Learning.*
